Dear Mr. Bush:

Section 382.055 of the Texas Clean Air Act, Texas Health and Safety Code, Chapter 382, and Title 30 Texas Administrative Code (30 TAC) § 116.314(a), requires the Texas Commission on Environmental Quality to notify the permit holder when it has been determined a permit is scheduled for renewal. Please apply for review of your permit renewal no later than April 24, 2014 using the application form available at the Web address below. Failure to submit your application prior to the expiration date will result in expiration of this permit.

**Company Name** - Building Materials Corporation of America  
**Customer Reference No.** - CN602717464

**Permit No.** - 7711A  
**Permit Expiration Date** - October 21, 2014

Table 30R - Estimated Emissions and Fee Certification for Permit Renewals (Form No. 20065)

A fee based on the schedule indicated in 30 TAC § 116.313 must be submitted with this application. Upon receipt of your application, a determination will be made based on the number and type of emission points, emission rate and type of air contaminant, as to the need for you to furnish atmospheric dispersion modeling to determine the impact of emissions on the surrounding area. After receipt of a completed application, you will be notified of the requirements and procedures for public notification.
